# **Disposition and Criminal Conviction Analysis of Probationers, Parolees, and Released Maximum-Term Prisoners, Fiscal Years 2008-2012**

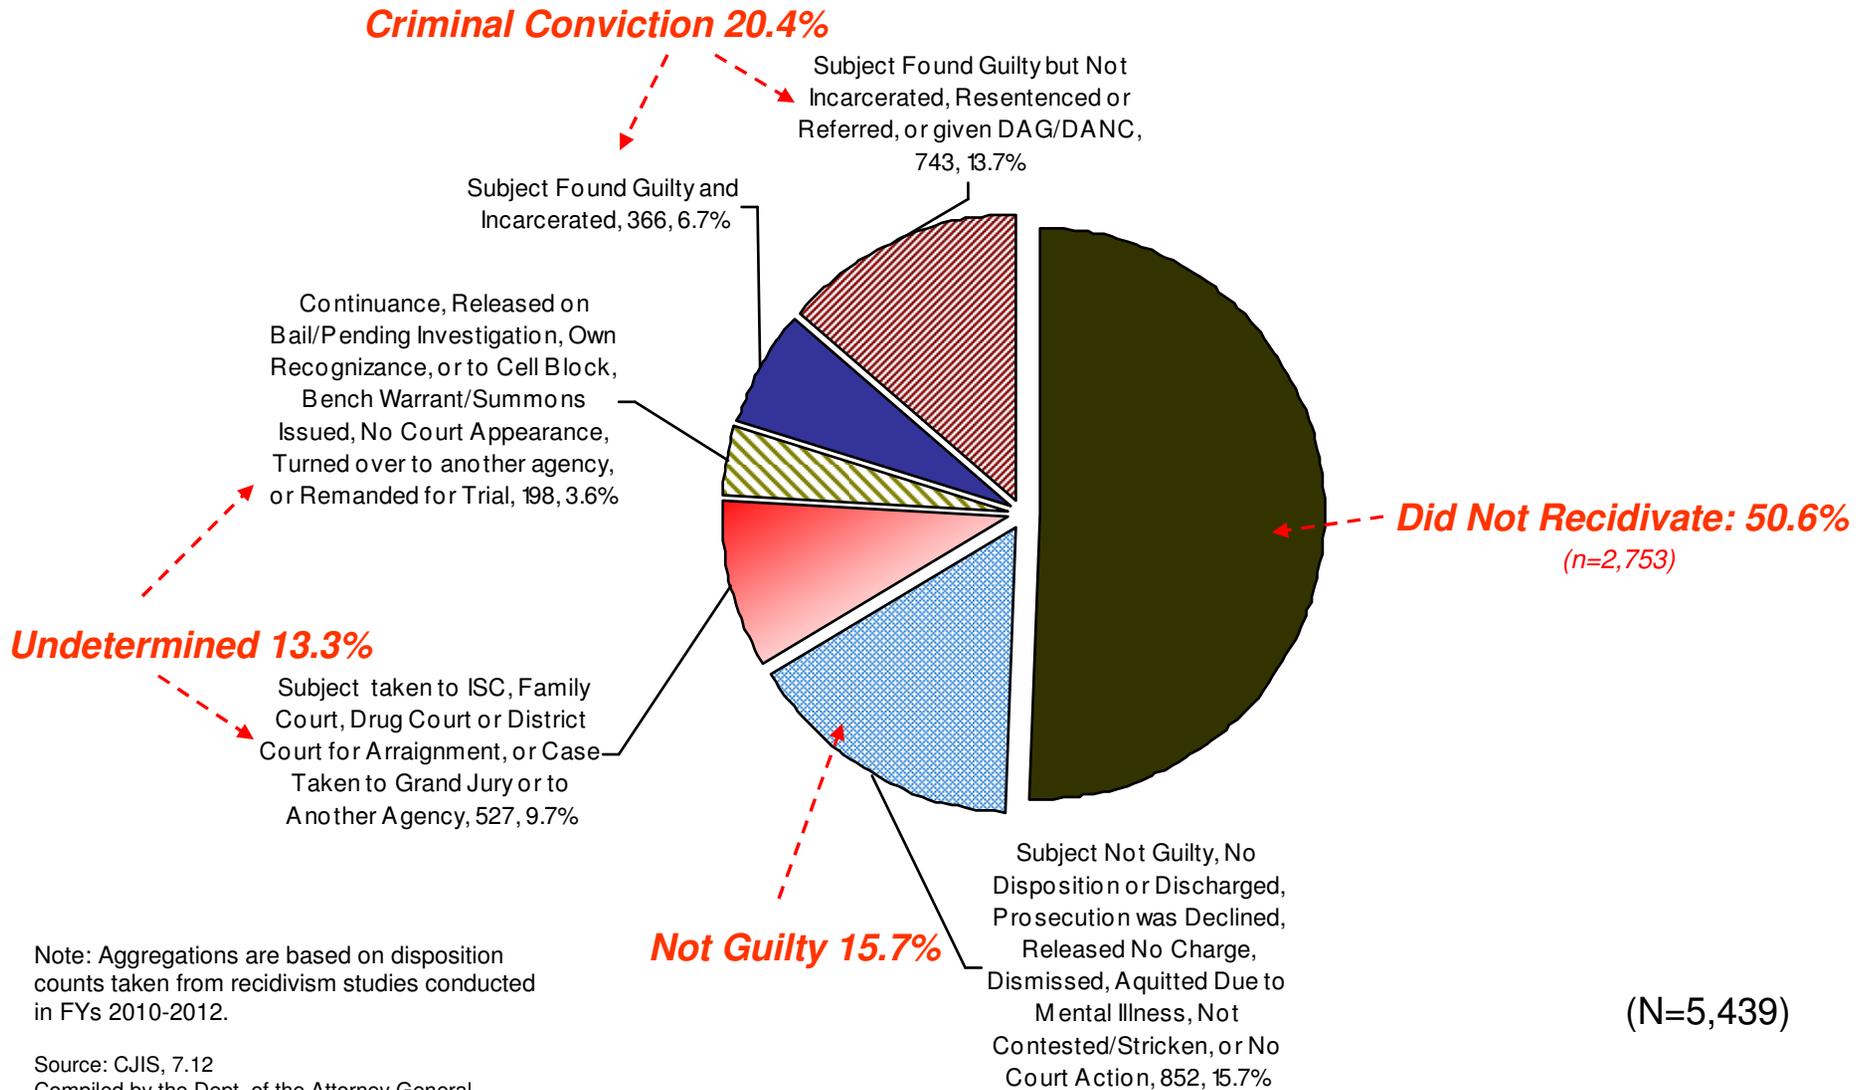

Department of the Attorney General  
Research and Statistics Branch, CPJAD  
August 28, 2013

Timothy Wong,  
ICIS Research Analyst

# Methodology

1. This analysis is based on offender data from the following agencies: the Hawaii State Judiciary (Adult Probation Services), Hawaii Paroling Authority, and Hawaii State Department of Public Safety. The disposition counts were taken from recidivism studies conducted in FYs 2010-2012. The disposition for each recidivism event was established by the earliest rearrest/charge from the time of the offender's probation start of services date, released to parole date, or released from prison date. The disposition falls along a continuum of court-related outcomes that include release/dismitted charges or no court action taken; convictions where the offender was found guilty and incarcerated, or guilty but not incarcerated (e.g., community supervision, fined, or placed on probation); and undetermined status due to cases not yet being resolved.
2. Traffic violations are not counted as recidivism events, but revocations and parole violations are counted.
3. The data for this study were obtained from the Hawaii Criminal Justice Data Center, Department of the Attorney General, July 2012 extract. The analysis was conducted by the Research and Statistics Branch, Crime Prevention and Justice Assistance Division, Department of the Attorney General.

# Disposition Status and Criminal Conviction Rate for Felon Probationers (FYs 2010-2012 Reporting Periods)

Note: Aggregations are based on disposition counts taken from recidivism studies conducted in FYs 2010-2012.
